

Annex IV – Site Locations for the Sampling of Forest Soils in Georgia

As described in the Terms of Reference, up to 18 sites shall be assessed under the service contract to be concluded. While the exact locations of the sites will have to be defined throughout the implementation of given contract, this Annex shall provide an overview of the expected locations to serve as a basis for reliable calculation of transportation costs, time consumption and other aspects relevant for submitting a financial offer.

16 sites are preliminarily defined nearby the listed villages and locations. Up to 2 additional sites may be selected if meaningful for the further analysis and providing the availability of resources.
