

General Information:

Due to the planned upgrade of the Storage systems infrastructure to new and more advanced models, the procurement of equipment is planned.

	Item name	Quantity	Delivery days
1	Dell PowerStore 500T All-Flash NVMe Storage Array 16 x 3.84TB NVMe SED NON-FIPS SSD P1 192GB Appliance DIMM (96GB Per Node) PowerStore Base SW: 25GBE OPTICAL 4 PORT CARD (PAIR) 32GB FC 4 PORT IO MODULE (PAIR) Power Supply Dual 1450W (200-240V) HIGH Line Only 6x3M OM4 FIBRE CABLE QTY2 UNIT CONFIG KIT Double Drive Failure 8+2	1	30-60
2	Connectrix DS-7710B 8P/24P Switch, rear-to-front airflow, Rack mount kit Connectrix DS-7710B 8Port 32G SFP Port on Demand Upgrade Kit Connectrix C14-TO-C13 1M INTERNAL CAB POWERCORDS-B	2	30-60
3	32Gb SFP	16	30-60
4	ProSupport (Next Business Day Onsite Service)	36 Month	
5	Technical works (Installation, configuration and migration)	1	

Commercial and Compliance Requirements:

All equipment must be:

- Brand new
- Unused
- Not refurbished
- Not unauthorized imported
- The bidder must provide a valid Manufacturer Authorization Form (MAF), to confirm that equipment is officially supplied by authorized channels and eligible for vendor support.
- The supplier shall ensure that all supplied equipment is registered under the Customer's name in Dell Technologies support portal.
